EDUCATION

Syracuse University, College of Engineering and Computer Science, Syracuse, NY
B.S., Computer Science, May 2019
Minor in Engineering and Computer Science Management
- Dean's List three semesters
- GPA: 3.598/4.0

TECHNICAL SKILLS

Programming Languages: JAVA, Python 3, HTML, CSS, Bootstrap, MIPS Assembly
Software: Ubuntu, Emacs, MARS, Sublime, Microsoft Office (Word, PowerPoint, Excel)

RELATED PROJECTS

Personal Portfolio Website:
- Developed and designed a responsive single page and multipage personal portfolio website using HTML and CSS with Bootstrap. (Fall 2017)

Wikipedia Web Crawler:
- Developed a web crawler that explores Wikipedia by clicking on the first link in the article using Python and Beautiful Soup for parsing HTML documents. (Summer 2017)

Merge Sort(Assembly):
- Developed a merge sort program in MIPS assembly language to sort an array while conforming to the same merge sort implementation as the given C++ code. (Spring 2017)

Swarm Robots:
- Collaborated with five team members to program robots to match simulations. Various tasks include avoiding obstacles, travelling to a designated beacon, and communicating with a specific robot to replicate its exact movements via infrared signals. (Fall 2015)

LEADERSHIP

Society of Asian Scientists and Engineers, Freshmen Representative
Syracuse, NY (Fall 2015, Spring 2016)
- Collaborated with the fundraising team to plan and organize events
- Recruiting and communicating with prospective student members via social media

WORK EXPERIENCE

Assistant Manager, China City
Fair Haven, VT (Fall 2014 - Summer 2017)
- Lead staff, check inventory, cook and package goods, and expediting to ensure customers receive their order in a timely manner

Cashier, China City
Fair Haven, VT (Spring 2012-Spring 2014)
- Take orders, package food, manage payments and customer satisfaction

LANGUAGES

English (Fluent), Fujianese (Native), Mandarin (Conversational)
